Steve,

I got your voice mail pertaining to the midterm submittal. We were held up waiting on information for the bonding portion of the submittal and the corporate officer information. I should have called you, I apologize.

We will have the submittal to you this week. Thank you.

Subject: Sunnyside Mid-term: Acid/Toxic Deficiency Conference Call

Hello,

I just got off the phone with Rusty Netz and he indicated that he would like to have a conference call with folks to discuss the acid/toxic/material testing deficiency that was identified during the SCA mid-term review.

I will be out of town until September 13th and won't be able to facilitate this meeting. I discussed with Rusty that the Division would be happy to set up a conference call to discuss the issue. I'll leave it to you folks to set something up.

Regards,
Steve
