Subject: Sunnyside Cogen 0070035 Outgoing Re: New AVS Entities

Hello Mr. Stein,

I do not have OFT information for these entries at this time. The names, positions and an acronym for the affiliated organization was all that was provided in the Mining and Reclamation Plan. A mid-term review was just initiated for this company and the coal program will make further inquiries of the permittee to gather the OFT information. This process will likely take a couple of months.

If you wish to remove the orphan entities from the AVS, in order to close out the March entries, please do so. We can re-enter them when the OFT information is provided.

Thanks,

Priscilla Burton, CPSSc

Hi Pricilla,

You created two new entities in March 2010 that have no OFTs making them orphan entities (see below). Please add them to OFTs in AVS and let me know when you do it, so I can close out my March new entity review. Feel free to call me if you have any questions.
