Rusty,

To follow up on our conversation earlier today about the numbers of copies:

- Three copies are required for review for both Sunnyside Refuse and Star Point Waste Fuel. "Review" includes submittals for permit amendments and responses to deficiencies. One copy stays in our PIC room and the Price and Salt Lake offices each get one copy for review.
- Six clean copies are required for Star Point Waste Fuel at final approval. This provides one for our PIC, one for incorporation at Salt Lake, one for the operator to incorporate, one for PFO to incorporate, one for OSM and one for BLM.
- Four clean copies are required at final approval for Sunnyside Refuse. This provides one for our PIC, one for incorporation in Salt Lake, one for the operator to incorporate and one for PFO to incorporate.

Let me know if you have any other questions.

Regards,
Kevin
