Subject: Return of Permit Boundary Amendment, Sunnyside Cogeneration Associates,  
Sunnyside Refuse/ Slurry, C007/035, Outgoing

Dear Mr. Carter:

The Division received the above-referenced application on February 28, 2011. An initial review of the application conducted in accordance with R645-303-221, has determined that the application cannot be processed as submitted. The application appears to be premature in that it is requesting permit area reduction of an area that has not completed Phase III bond release (Old Coarse Refuse Road).

The Division is currently processing the bond release application for the old coarse refuse road and a bond release inspection is scheduled for April 26, 2011, but until this area has been released the permit area cannot be reduced. Therefore we are returning the Permit Boundary Amendment to you and suggest that you reapply once the bond release process is complete.

Please call me at (801) 538-5325 if you have any questions.

Sincerely,

Daron R. Haddock  
Coal Program Manager
