2. Signs and Markers

The mine identification sign is still in place on a power pole by the Savage Fuel Bay. The sign however has become loosened from winds and needs to be secured before it comes off completely. The sign does contain the required information.

6. Disposal of Excess Spoil, Fills, Benches

Some sparse grasses are visible on the reclaimed disposal pile #2 that was reclaimed this spring.

7. Coal Mine Waste, Refuse Piles, Impoundments

The refuse pile appeared stable. No visible hazards were observed during the inspection. The pile is being mined in different areas and different lifts according to fuel requirements.

8. Noncoal Waste

Site was free of noncoal waste items.
