## Technical Analysis and Findings

### Utah Coal Regulatory Program

March 3, 2016

**PID:** C0070035  
**TaskID:** 5063  
**Mine Name:** SUNNYSIDE REFUSE & SLURRY  
**Title:** MIDTERM COMPLETION RESPONSE

### Operation Plan

#### Topsoil and Subsoil

##### Analysis:

##### Analysis:

The application meets the requirements of R645-301-230 topsoil and subsoil handling, because the Clear water pond, Hoist house and Slurry Pond topsoil piles are no longer shown on drawings 2-1 and 5-1. these piles were were utilized to reclaim the Clear Water Pond and the Slurry Ponds.

Drawing 8-4 also reflects a reduced volume of topsoil available as a result of using the three aforementioned piles. Reclaimed area is cross-hatched on Drawing 8-4. Note 3.5 on Dwg 8.4 indicates that the reclamation acreage will be updated with a bond release application.
