Subject: Return of Phase I Bond Release Application, Sunnyside Cogeneration Associates, Sunnyside Refuse and Slurry, C/007/0035

Dear Mr. Hascall:

The Division received the Phase I Bond Application submitted by Sunnyside Cogeneration Associates on February 3, 2016 for portions of the Sunnyside Refuse. Based on the following rule, the Division is returning this application to you for re-submittal during a season in which the site can be properly evaluated.

R645-301-880.110. The permittee may file an application with the Division for the release of all or part of a performance bond. Applications may be filed only at times or during seasons authorized by the Division in order to properly evaluate the completed reclamation operations. The times or seasons appropriate for the evaluation of certain types of reclamation will be identified in the approved mining and reclamation plan.

Your application should also contain a draft of the proposed newspaper advertisement required by R645-301-880.120, so that the Division can determine its adequacy for determination.

If you have any questions, please call me at (801) 538-5325.

Sincerely,

Daron R. Haddock  
Coal Program Manager
