1. Permits, Change, Transfer, Renewal, Sale

1. There are no pending amendments with the Division at this time.

2. Signs and Markers

The identification sign was inspected and it meets the requirements of the R645 Coal Rules. See Photo

3. Topsoil

I inspected the topsoil pile and I did not see any signs of wind or water erosion. The topsoil piles appear to be stable and protected by a berm. See Photo

4.a Hydrologic Balance: Diversions

The diversions and culverts were open and functioning as design. Sediment has started to fill within these structures. Spring clean of the ditches and diversions are needed. Many of the diversions are covered with weeds which causes the slowing down of the water and the depositing of sediment occurs.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

I inspected the sediment ponds throughout the property. They contained some water but were not discharging. It is unlikely these structures will discharge in the near future. The embankments appear to be stable. Inlets and outlets would function as design. I did not see any hazardous conditions to these structures.

7. Coal Mine Waste, Refuse Piles, Impoundments

I inspected the refuse pile and it appears to be stable. I did not notice any hazardous conditions to the embankments. The refuse pile is not active during the inspection. The permittee uses this refuse for blending fuel for the power plant.

8. Noncoal Waste

The property was clear of non-coal waste materials such as oil, trash and grease cans.

10. Slides and Other Damage

No slides or other damage was noticed during the inspection.

16.a Roads: Construction, Maintenance, Surfacing

The roads were compacted with no dust control problem. Roads were wet from the recent rainstorms.

16.b Roads: Drainage Controls

Annual spring cleaning is needed to the culverts and diversions throughout the property. Most diversions and culverts have sediment build-up.

Permit Number: C0070035
Inspection Type: PARTIAL
Inspection Date: Wednesday, March 25, 2020

18. Support Facilities, Utility Installations

No new facilities constructed since the last inspection.
