INSPECTION REPORT

Permit No. EXP/007/038 Inspection Date: September 10, 1992
 Permittee and/or Operators Name: Cypress Western Coal Company
 Business Address: P.O. Drawer PMC City: Price State: UT Zip: 84501
 Mine Name: Blackhawk Site County: Carbon State: Utah
 Type of Mining Activity: Underground Surface Other X
 Company Officials: Steve Rigby State Officials: Steve Demczak
 Time of Inspection: 9:00 a.m. - 11:00 a.m. Partial X Complete:
 Acreage: Permitted Disturbed 3.8 Regraded
 Seeded 0 Bonded 0 Date of Last Inspection: July 22, 1992
 Weather Conditions: Enforcement Action:

Permit No. EXP/007/038 Inspection Date September 10, 1992

(Comments are Numbered to Correspond with Topics Listed Above)

1. Permit -

Plateau Mining has submitted an amendment for the re-opening of a reclaimed portal at the lower portal site for possible access of men and materials. This will increase the disturbed area by .1 acres. This will be approved once the \$50,000.00 is in place.

4b. Diversions -

The upper and lower pad areas at the Willow Creek site had all diversions installed. The diversions ditch at the lower end of the disturbed area at the fan area will require cleaning and an additional silt fence for sediment control may be necessary. The culvert under the road has started to contain sediment. This is presently not a violation and the operator will correct the potential problem.

4d. Other Sediment Control Measures -

The catch basin at the lower pad area (intake portals) is installed and has contained runoff from the disturbed area.

8. Noncoal Waste -

The portal at the upper pad does contain some coal waste as backfill material through the AML project. The material will be stored on site with drainage control.
