PERMIT NUMBER: ACT/007/038 DATE OF INSPECTION: June 9, 1993

(Comments are Numbered to Correspond with Topics Listed Above)

1. Permit -

The operator has asked for an extension of the exploration permit. The reason for the extension is a need for additional time for further exploration and evaluation of the property.

3. Topsoil -

All the topsoil piles are protected from wind and water erosion. The piles have formed a thick hard crust as a protection against the wind. A berm was constructed around the pile for protection against topsoil loss. A small amount of native vegetation has started to grow on the piles.

4a. Diversions -

The diversions were functioning as designed and were meeting the performance standards.
