Dear Mr. McKenzie:

Re: Extension of Exploration Project, Cyprus Western Coal Company, Blackhawk Site, EXP/007/038, Folder #3, Carbon County, Utah

On May 27, 1993, the Division received your request to extend the Exploration permit for the Blackhawk site. Your application has been reevaluated and your request is considered reasonable. The Division hereby extends your exploration permit to November 30, 1993, as requested. You will be responsible for meeting all of the obligations and commitments in your exploration plan and continued compliance with the performance standards.

Cyprus should complete the project including reclamation by this date or have submitted an application for development of the site. Extended exploration beyond the November date may constitute a Major Exploration Project and may require further analysis and a revised permit.

The Division will continue to conduct periodic inspections at the site to ensure compliance. Stephen Demczak is the assigned inspector and you may contact him regarding compliance issues. Please call me or Daron Haddock if you have further questions.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lowell P. Braxton'.
