Re: Cyprus Plateau Mining Company, Willow Creek Mine - Transmittal of Remaining Permit Sets for Agency Distribution

Dear Mr. Haddock:

Accompanying this transmittal are ten (10) sets of the Willow Creek Permit Application document for distribution to the other agencies identified on the "General Mine Address List for Mailing" which you recently provided.

Each set consists of seventeen (17) binders (Volumes 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 13A, 14, 14A, and 14B) and a set of thirty-nine (39) maps to be provided under separate cover by Earthfax Engineering of Salt Lake City. The maps, which address the existing permitted Castle Gate and Crandall Canyon operations, are to be inserted into Volumes 13A, 14A, and 14B (Volume 13A - Maps 3.4-1 through 3.4-13; Volume 14A - Maps 3.7-1 through 3.7-7A; and Volume 14B - Maps 3.7-7B through 3.7-14). These permit sets incorporate all permit revisions to date including those associated with the 8/8/95, 8/18/95, and 12/12/95 Administrative Completeness Response submittals and minor corrections resulting from preliminary UDOGM Technical Adequacy comments received from Steve Johnson, Jim Smith, and Paul Baker.

Your cooperation in facilitating timely transmittal of these permit sets to the respective agencies for review will be appreciated. We look forward to the opportunity to discuss and address resulting questions and comments and to proceed in a timely basis toward issuance of final permit determinations. Please feel free to call me with any questions regarding this transmittal or any other aspects of the permit review and approval process.

Sincerely,

TerraMatrix, Inc. for Cyprus Plateau Mining Corporation

Jerry M. Nettleton  
Project Manager
