Re: Cyprus Plateau Mining Company - Willow Creek Mine, Additions and Corrections to Administrative Completeness Responses

PRO 007/038 #2

Dear Mr. Haddock:

Ben Grimes, following his review of the Administrative Completeness response package submitted on August 8, 1995, contacted me with one omission and several minor corrections to that package. Accordingly, accompanying this transmittal letter are the following additional or revised permit materials to be inserted or replaced, as appropriate in your copies of the permit application document:

- Pages 2.1-14, 15, and 15a, Volume 1 (revised to show Harry and Alda Edwards as contiguous rather than permit area owners and to show the State of Utah as both a permit and contiguous mineral owner)
- Page 2.1-25a, Volume 1 (revised to reflect that the required request and hearing for mining within 100 feet of a public road have already occurred)
- Page 3.3-1, Volume 2, (revised to reflect ongoing aquatic, raptor, and sensitive plant investigations during both 1994 and 1995)
- Page 3.3-25 (Table 3.3-2), Volume 2 (revised to correct date for second fish population survey to June 28-29, 1995)
- Exhibit 3, Volume 8, Table of Contents and Documentation for Public Hearing (inadvertently omitted from 8/8/95 submittal)
- Exhibit 16, Volume 12, Table of Contents and Subsidence Control Agreement (additional information)

We appreciate your cooperation in replacing these materials in your copies of the Willow Creek permit application document. Please feel free to contact me with any questions regarding this submittal or any other aspects of the permit application.

Sincerely,

TerraMatrix, Inc.
