August 21, 1996

TO: File #2

FROM: Joseph C. Helfrich, Permit Supervisor 

RE: Willow Creek , ACT/007/038, Folder #2

After reviewing the Technical Field memo dated August 2, 1996, at the Willow Creek Mine and conferring with Steve Johnson it, is the Divisions position that a Notice of Violation is to be issued att the Willow Creek site. The reconsideration of this decision is based on the following:

- Mining activities did cause an impact the prevailing hydrologic balance of the Willow Creek stream.
- Agency actions are not precluded by another government entities position.
- Steve Johnsons memo indicates concurrence with the Army Corps of Engineers recommendation for reestablishing flow to Willow Creek.
