RE: Annual Report, Cyprus Plateau Mining Corp., Willow Creek Mine, ACT/007/0038, Carbon County, Utah

I have reviewed the Willow Creek annual report hydrology section and have found that Cyprus has satisfied the regulatory requirement. Water monitoring data is included with charts showing trends of many constituents. Cyprus has not included discussion about these trends.

The annual report submitted by Cyprus meets the regulatory requirements, but further analysis may aid the Division and the mine operator in understanding the effectiveness of reclamation techniques used at Willow Creek Mine come that time.
