Re: Permit Modification to As-Built Conditions, Cyprus Plateau Mining Corporation, Willow Creek Mine, ACT/007/038, Carbon County, Utah

Dear Ms. Grubaugh-Littig:

The enclosed permit modification is being performed to update the Willow Creek Mine permit to as-built status. The updated information documents the field changes made during construction. The original disturbed area in approved plan was reduced by 0.97 acres during construction. However, with subsequent permit modifications, e.g. clean coal stockpile expansion, degassification wells, and Barn Canyon Shaft, the overall acreage has increased; these increases have been or will be authorized under separate permit modification applications.

The new Willow Creek Mine facilities originally permitted were modified to more efficiently operate the mine and to reduce the overall disturbance area. The portal area in Willow Creek Canyon was reduced in size by relocating the water tanks closer to the portals and by not constructing the additional access road and bridge. Additionally, some previously existing facilities at the Preparation Plant and Crandall Canyon were removed from the site completely or relocated to another area of the mine.

It is my understanding, from Mr. Ben Grimes, that the modification of the site construction and facilities was discussed with Division management prior to construction. At that time, Cyprus indicated to the Division that there was a strong possibility that the facilities would be revised during construction and the disturbed area would be reduced. The Division management indicated that as long as the area was reduced, no implication to the permit would likely be made.

This submittal includes revisions to text, tables, maps, exhibits, and figures as identified on the C2 forms. The reclamation bond has also been revised to reflect the facilities and site accordingly.

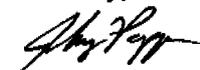

Revisions in this submittal have been made in the text previously submitted for other recent permit change applications. These change applications include: degassification wells 97-30-2A-DG, 97-30-5-DG, Barn Canyon Shaft site, degassification wells 98-25-5-DG, 98-30-8-DG, 98-30-9-DG, 99-30-10-DG, and 99-30-11-DG. The revised text, tables, maps, exhibits, and figures included in those submittals are included in this submittal.

Ms. Pamela Grubaugh-Littig
September 28, 1998
Page 2

I realize that this submittal is late in coming and because of that, the review of this submittal will be at times very confusing, but I do believe that if we work together we will all be able to maintain our sanity and keep from pulling our hair out. I do want a permit that is clean with no dangling participles, because if we fail to adequately address everything it will create the Permittee and Division unnecessary anxieties in the future.

If you have any questions, please do not hesitate to contact me at (435) 472-4741, or Mr. Ben Grimes (Hansen, Allen & Luce) at (435) 637-5032, ext. 440. Ben has been hired to assist Cyprus with this project because of his involvement in the permitting of the Willow Creek Mine from its inception..

Sincerely,

Johnny Pappas
Sr. Environmental Engineer

Any other specific or special instructions required for insertion of this proposal into the Mining and Reclamation Plan?

Application for Permit Processing Detailed Schedule of Changes to the MRP

Title of Application: Revise permit to reflect as built conditions	Permit Number: ACT/007/038 <hr/> Mine: WILLOW CREEK <hr/> Permittee: CYPRUS PLATEAU
---	---

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**
