**Subject:** Crandall Canyon Reclamation and Post Mining Land Use Change Amendment - Request for Extension

---

Daron,

I was informed today by our Landman, Hans Bihr, that I should request a four week extension, until August 17, due to logistical problems with AEP. Apparently the the person who has to review the partial release and sale of the property is on vacation and is unavailable to address any real estate issues.

However, everything is going well with Plateau and Mr. Martineau. The two parties are ready to sign and close the deal, but without AEP's concurrence a deal can not be finalized. On behalf on Plateau Mining Corporation, we regret any inconvenience this might cause the Division.

Sincerely,

Johnny Pappas  
Sr. Environmental Engineer
