Re: UPDES Report, September 2002 - Permit No. UTG040012

Dear Mr. Herkimer:

Discharge Monitoring Reports are enclosed for the month of September. During this month, an upset condition was experienced at outfall 011 following a precipitation event and short-circuiting of a diversion channel. The upset condition was verbally reported to the Division within the appropriate 24-hours and a written report submitted on September 20, 2002 within 5-days of a known exceedence.

If you have any questions, please do not hesitate to contact me at (435) 472-4741.

Sincerely,

Johnny Pappas
Sr. Environmental Engineer
