Re: Notification of Intent to Commence Reshaping Activities, Refuse Pile, Plateau Mining Corporation, Willow Creek Mine, C/007/038, Carbon County, Utah

Dear Mr. Haddock:

Plateau Mining Corporation (PMC) would like to thank the Division for taking the time last Friday (November 21) to meet and discuss the reshaping of the Willow Creek Mine refuse pile. PMC will submit its revised reclamation plan for the refuse pile and preparation plant area around mid-December. The new plan is superior to the currently approved plan and is one that maintains the existing utility easements, utilizes more growth media, provides better drainage control, and is more aesthetic.

Reshaping activities are scheduled to commence sometime during the fore-part of January 2004. If you have any questions or need additional information, please do not hesitate to contact me.

Sincerely,

Johnny Pappas
Sr. Environmental Engineer
