**Subject:** Two-week extension

Daron,

Plateau Mining Corporation (PMC) is seeking a 2-week extension to the May 3, submittal date for Task #1875. PMC believes that it will be able to have all the requisite material by May 17, if not sooner. On April 26, PRWID signed the Purchase Agreement and Warranty Deed and paid PMC for the land and structures. PMC is waiting for the recorded Warranty Deed so that it can be included with its clean copy submittal. In the meantime, PMC will assemble the appropriate clean copies for submission.

PMC is most appreciative with the Division's timely review of this permitting action and guidance with the refuse pile redesign and post mining land use permitting action.

Thanks,  
Johnny Pappas
