Subject: Task 2940

Comrades,

I reviewed the incoming information. I found that the amendment meets the IR requirements.

Angela, please send out a letter to the Permittee telling them that it passed the IR.

Daron and Jim, Dennis wants to take the Barn Canyon shaft area out of the disturbed area and get a bond adjustment because the plans are out of the MRP. The Barn Canyon shaft was never constructed, the area never disturbed, and the mine is being reclaimed.
