Subject: Re: Crandall Canyon Phase I Bond Release Proposed Public Notice

Hi Dennis,
The proposed public notice looks pretty good to me. There are a couple of small changes that I would suggest. In the heading of the notice I would indicate that the permit was "last renewed" on 04/24/2006 rather than approved. Also there is an "of" missing in the first sentence. (Crandall Canyon portion "of" the Willow Creek Mine).
Make those fixes an you are good to publish. Thanks and we look forward to your bond release application package.

Sincerely,
Daron R. Haddock
Coal Program Manager

Mr. Daron Haddock,

The attached Proposed Public Notice is for Phase I bond release for the Crandall Canyon portion of the Willow Creek Permit. Your review and approval of this notice is needed before it is published. The published Public Notice will be a part of the Crandall Canyon Phase I bond release application. Mr. Peter Hess has reviewed and indicated his agreement with bond figures presented in this Proposed Public Notice. Upon receiving your approval of this Proposed Public Notice the Permittee will have it published in the local newspaper and deliver to the Division the actual bond release application.

Regards,
Dennis N. Ware
