Dear Ms. Semborski:

Subject: UPDES General Coal Mining Permit No. UTG040023, West Ridge Mine

Enclosed is your copy of the signed general permit. Coverage becomes effective on January 1, 1999 all the requirements and conditions of the permit will be in effect at that time. Preprinted Discharge Monitoring Report Forms (EPA Form 3320-1), for self-monitoring and reporting requirements as specified in the permit, will be sent to you as soon as possible.

This is a reminder that as soon as the facility is built and discharges, a representative sample of mine water must be taken and analyzed for the metals and whole effluent toxicity as indicated in the original notice of intent (NOI) sent to you several weeks ago. The results shall be submitted to the Executive Secretary at the address indicated in the issued permit for submitting discharge monitoring reports.

Also enclosed is the multi-sector general storm water permit (which contains an NOI). Please be advised that you may need to obtain this general permit. For more information please contact Harry Campbell at (801) 538-6923.

As the agency charged with the administration of issuing UPDES Permits, we are continuously looking for ways to improve our quality of service to you. In effort to improve the State UPDES permitting process we are asking for your input. Since our customer permittee base is limited, your input is important. Please take a few moments to complete the enclosed questionnaire. The results will be used to improve our quality and responsiveness to our permittees and give us feed back on customer satisfaction. We will address the issues you have identified on an ongoing basis.

A fee schedule was included in the Utah Department of Environmental Quality budget appropriation request at the direction of the Legislature and in accordance with Utah Code Annotated 19-1-201. The fee schedule, as approved by the Legislature, includes a charge for the issuance of a UPDES permit. Please remit \$1,530.00 within 30 days of receipt of this letter to:
