Dear Ms. Wright

ppo/007/039 #3
Copy Baron, Joe, Pam

We appreciate your letter addressing our concerns. After reviewing your letter dated December 10th, We are not totally satisfied with the responses. Here are the things that are still major concerns to us.

PROPERTY LINE It is are understanding that the corners between us have not been established. Marker trees but no corner section caps have been found. If this is the case we would like the corners established whether by Soldier Creek or the county. We would like this done prior to permitting or before October 1, 1998

NOISE FROM THE MINE FAN. After the fan is in place and the money spent it seems a poor time to evaluate what can be done. Wildlife and livestock are not the ones that are concerned with the noise. We feel if this is not aggressively addressed, the value of our property for hunting and recreation activities and as a whole will have been extremely effected.

We look forward to these concerns being addressed, in a more acceptable manner.

Sincerely

George M Thayne
