Re: PAP Deficiency Punch list, Canyon Fuel Company, LLC, Dugout Canyon Mine, PRO/007/039, Folder #3, Carbon County, Utah

Dear Mr. Payne:

As previously discussed with you, the Division has completed a review of the Permit Application Package (PAP) for the proposed Dugout Canyon Mine with the focus on identifying any remaining plan defects. We have prepared specific punch lists which should describe the deficiencies that will still need to be addressed in order for you to obtain a permit. Lists from Mike, Susan, Robert, and Wayne have been enclosed.

It is felt that allowing Canyon Fuel to correct the defects at this point will allow for a speedier and more effective permitting effort. A better technical analysis will be able to be completed once the defects have been corrected.

We will expect a complete response to be submitted by March 6, 1998. You may submit sooner if you so desire.

Thank you for your help during the permitting process. If you have any questions, please call me or the appropriate member of my staff.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".
Daron R. Haddock
Permit Supervisor
