Dear Mr. Olsen:

The Division has completed a review of the application to make drainage control changes at the Dugout Canyon Mine, received on June 1 and July 26, 1999. Your application is determined to meet the regulatory requirements and it is hereby approved. In order for us to incorporate this change into your Mining and Reclamation Plan we will need to have clean copies submitted that have the redline/strikeout removed. Please submit 3 clean copies of the changes by no later than September 10, 1999.

Please call if you have any questions.

Sincerely,
