**Subject:** Re: Dugout 3rd quarter 2000 data updated to APPX

Bueno....Sheila, would you please do this...thanks...

>>> Ken Wyatt 01/18 9:07 AM >>>

Yes, we could put these in with the operator cover letters. That way it would help track its progress from the received date until it was officially put in the database.

Ken

PS: Dennis Oakley called yesterday and I walked him through his first upload and initial processing. He said it worked pretty well and didn't seem that complicated. Made my day!!! I needed that.

Please disregard the previous email about Soldier Canyon Mine 3rd quarter data. The sites were associated with Dugout Canyon and were processed into APPX on Jan. 18th.

The 3rd quarter 2000 data for the Dugout Canyon Mine included the following samples. Standard Deviations (SD) greater than 2 were noted to the right of respective samples.

DC-1 ACZ L29032-04, 09/18/2000 SD > 2 for Carbonate  
DC-2 ACZ L29032-05, 09/18/2000 SD > 2 for Potassium  
DC-3 ACZ L29032-06, 09/18/2000 SD > 2 for Potassium
