RE: Canyon Fuel Company, LLC - "Dugout Canyon" Mine - Application for a Permit Revision, Disturbed Area for Degas Well G-2

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGGM) October 29, 2003, request for a decision, under 30 CFR 947.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Disturbed Area for Degas Well G-2, has determined that it revises the text in Chapter 1 to reflect a 1.21 acre increase in the disturbed area associated with the installation of Degas Well G-2 at the Dugout Canyon, Utah State permit C/007/039.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.11(a) and 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGGM from coordinating the review and approval of the Application for a Permit Revision, Disturbed Area for Degas Well G-2 with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the October 29, 2003 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic transmittal dated October 30, 2003, the U.S. Forest service stated it had no jurisdiction over or comments on the application.

In an electronic transmittal dated November 10, 2003 dated the Bureau of Land Management stated that, in it's opinion, the Permit Revision does not represent a change that would require a Mining Plan Modification.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
Manager, Northwest Branch
