**Subject:** Nest Boxes

Vicky,

The boxes will go across the street with the others. If I am not here, someone will be able to direct you. I will put a little sawdust in the bottom and put some water repellent finish on them and we will be ready to go. Right now my August schedule is open after the 16th except for the 18th. I will bring someone to help me carry stuff. We will use a ladder where we can and climbing spurs elsewhere. The main thing we need help with is the property lines- where we can and cannot put them. It may take us two days, but if you can just get us oriented on the first day, we can take it from there.

The first batch of boxes looks good. Thanks for your work on this.

I will call sometime on Monday to see if we can set up a day.

Tony
