RE: Canyon Fuel Company, LLC "Dugout Canyon" Mine - Application for a Permit Revision, Appendices Update

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) October 1, 2004, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Appendices Update, has determined that it proposes to add new and current information to Appendix 1-2, "Insurance and Proof of Publication", Appendix 3-3, "Fish and Wildlife Data", Appendix 4-1, "Air Quality Approval Order and Information" and Appendix 7-8, "Sediment Pond Design Calculations" in the approved permit application package for the Dugout Canyon mine, Utah State permit C/007/039.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Appendices Update with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the October 1, 2004 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic transmittal dated October 4, 2004, the U.S. Forest service stated it had no comments regarding the application for a permit revision.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ranvir Singh', with a long horizontal flourish extending to the right.
