Please download the approved data in the pipeline for Soldier Creek and Dugout for the 2nd Quarter.

Within the file for monitoring site SC-100, acidity is listed as a required parameter, it will not allow me to remove it. Will you please remove this parameter. According to my parameter listing, acidity is not required for this monitoring site.

I am waiting for additional lab data for PC1A, which is within the pipeline but not approved for download.

If you have any questions, call me at 435-636-2869. Thanks, Vicky
