Subject: Re: 2nd Quarter Water Data

Vicky,

I have uploaded all of the information for Soldier and Dugout Canyon from the pipeline into the database. A report is attached.

As a reminder, according to parameters set by the assigned hydrologist, you are still missing samples for:

MW-1 (May, June)
MW-2 (May, June)
UT0023680-002 (April, May, June)
UTG040020-001 (May, June)
UTG040020-002 (May, June)
UTG040020-003 (May, June)
UTG040020-004 (May, June)
SS-1 (quarterly - this is in the pipeline with errors).

You also seem to be missing pH, DO, Sp. Cond., and Flow for PC-2; and pH, Sp. Cond., and Flow for SC116, and 203.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

Please download the approved data in the pipeline for Soldier Creek and Dugout for the 2nd Quarter.

Within the file for monitoring site SC-100, acidity is listed as a required parameter, it will not allow me to remove it. Will you please remove this parameter. According to my parameter listing, acidity is not required for this monitoring site.

I am waiting for additional lab data for PC1A, which is within the pipeline but not approved for download.

If you have any questions, call me at 435-636-2869. Thanks, Vicky
