Subject: Approval of UC-6 Inlet As-Built, Task No. 2465, Canyon Fuel
Company, LLC, Dugout Canyon Mine, C0070039

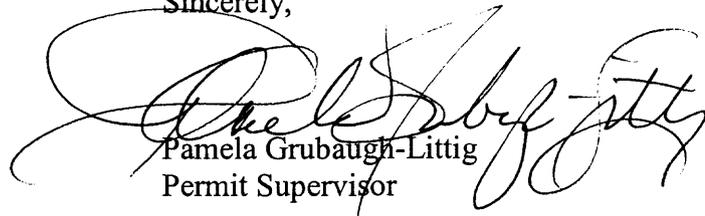

Dear Mr. Sass:

We have completed our technical review of the submitted modifications and as-built drawings for inlet UC-6 at the Dugout Canyon Mine facility.

Upon inspecting the conditions and topography in the area of inlet UC-6, it was apparent that modifications were prudent and necessary in order to insure that the culvert function properly and at its full capacity.

Upon receipt of five (5) copies of the modifications and as-built drawings for inlet UC-6, they will be incorporated into the MRP. The modification of inlet UC-6 will not necessitate an update to the Master TA.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
