Subject: Re: FW: Scanned Pages showing Approval of Waste Emplacement at Dugout

Vicky & Gregg,

Thank you for forwarding the scanned approved/incorporated pages describing the emplacement of wash plant waste at the Dugout Mine waste rock disposal site. Wayne Western, Pam and I have met and evaluated this proposal.

We have determined that CFC's test proposal to wash ~5000 tons of high ash coal from the Skyline Mine at the Savage Wash Plant and transport the residual waste to the approved Dugout Canyon waste rock disposal site is acceptable. All 3 sites are permitted and the approved Dugout Mine plan anticipates the possible receipt and disposal of wash plant refuse from all the CFC mines (Dugout, SUFCO & Skyline).

In order to formally document this activity for our mine files, we request a simple letter from CFC detailing Skyline's current test proposal and the plans that are anticipated for next year as well. This will not require an amendment to the approved mine plans. If you have any questions, please give me a call.

Thank you for your cooperation in this regard.

D. Wayne Hedberg
Permit Supervisor
Division of Oil Gas & Mining
Coal Regulatory Program

Gentlemen, here is a scanned copy of the pages associated with the emplacement of waste from Canyon Fuel mines at the Dugout waste rock site. The Canyon Fuel mines include Dugout, Skyline and Sufco. These pages show the incorporated date stamped by the Division. If you need any additional information please let me know. Vicky
