Subject: Waste Analysis Lab Data, Canyon Fuel Company, Dugout Canyon Mine, C/007/0039,  
Task ID #3045

Dear Mr. Sass:

Supplemental information for Attachment 5-4 of the Dugout Mine MRP was received on September 11, 2008. The information includes sampling conducted in 2007 and 2008, and supplemental information for the December 2006 waste sample as suggested under Task 2928. All samples were non-acid/toxic forming. All samples were alkaline in pH and saline. Texture of the material was equally divided between sandy loam and loamy sand.

The application is recommended for approval. There is no change to the Master Technical Analysis with this amendment.

Please call me at (801) 538-5262, or Priscilla Burton at (435) 613-3733 if you have any questions.

Sincerely,

James D. Smith  
Permit Supervisor
