**Subject:** Re: Filter Fabric Specification  
**Place:** OGMCOAL

Vicky,

I placed a call to a Mirafi dealer in southern California. The person I initially talked to was under the impression that the 140N product is appropriate for this project. The technical person with all the answers was in the field so I'll follow up with them tomorrow. I'll keep you posted.

Steve

On the G-22 road at the culvert outlet(s) the product intended to be used for the filter fabric is Miriafi 140N, we currently have a roll on hand at the mine. The product description and specifications are attached to this e-mail. Please let me know if this meets your specifications, otherwise please suggest a product. Thanks, Vicky
