RE: Revisions to Surface Facilities Maps – Plate 5-2 with the addition of structures within the disturbed area and revision to Chapter 5 of M&RP, Dugout Canyon Mine, Canyon Fuel Company, LLC, C/007/039, Carbon County, Utah

Dear Sirs:

Attached please find four copies of revisions to the M&RP associated with changes to the surface facilities drawing for the mine site. Pages of Chapter 5 have been revised to provide reference to structures added to the Dugout mine facility. The structures will be constructed within the current disturbed area. The topsoil has previously been removed. Bonding has been provided for the proposed structures in the submittal.

A concrete pad (approximately 12" X 30') reinforced with rebar will be added immediately adjacent to the fueling station. The pad will be used by vehicles fueling at the station. Two three-sided roofed storage building are to be constructed, one to store roof bolts (approximately 12' X 60' X 12') and the second to store drill bits (approximately 12' X 30' X 12'). Both storage buildings will be on concrete pads. In addition, a mobile trailer (12' X 60') will be pulled to the site to be used for offices and storage. Bonding has been provided to facilitate the removal of the mobile trailer from the mine facility area at the time of reclamation.

A copy of this submittal has been delivered to the Price Field Office.

Thank you for your assistance and if you have any questions please call me at (435) 636-2869.

Sincerely yours,

Vicky S. Miller
