RE: Notice of Violation #10072, Fine Assessment and Abatement Action
Dugout Canyon Mine, Canyon Fuel Company, LLC, C/007/039, Carbon County, Utah

Dear Sirs:

Enclosed please find five copies of a revision to the M&RP Chapter 7, to address the establishment of a mine water monitoring point. The information is being submitted for consideration in conjunction with the fine assessment and as a part of the actions required for NOV abatement. Upon approval of the submitted information, Dugout will begin to monitor the "MP" site.

Dugout personnel are working closely with hired chemists, scientists and engineers to develop a system and refine the treatment(s) of water currently being encountered underground. The process is ongoing and will continue until the water being discharged is compliant with UPDES limits.

We have met the requirements of the Division of Water Quality (DWQ) and are working closely with their personnel to develop and implement a treatment plan. At the time of this letter, DWQ has not approved the treatment plan we submitted or agreed upon a compliance schedule.

Sincerely yours,

Vicky S. Miller
