Dana,

As per your voice mail, I've attached the TSS Excel file that I presented on March 9<sup>th</sup>. One thing that I'd like to point out is that there are thirteen values shown on the chart as 5 mg/l. Of those thirteen, ten were actually reported from the lab as "less than" 5 mg/l. So, our TSS compliance was actually a bit better than the chart illustrated.

If you have any additional question, please feel free to contact me.

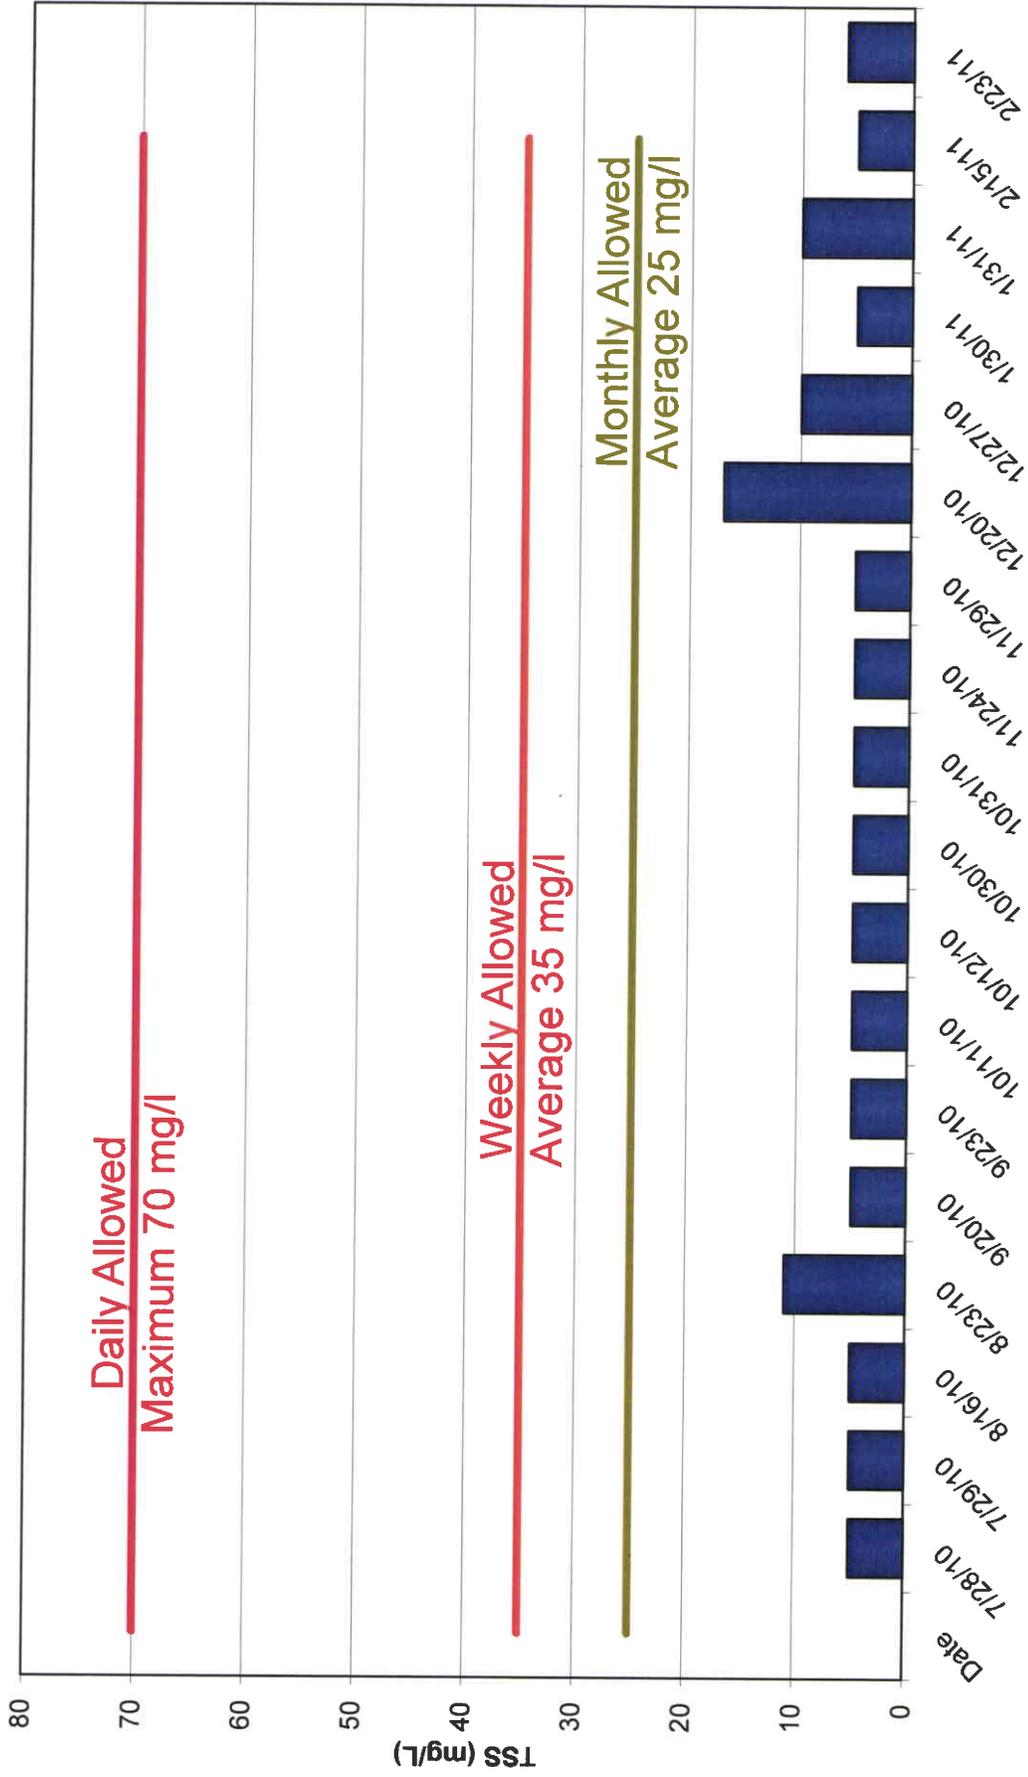

Thanks,
