2. Signs and Markers

The identification sign was on the side of the main road overlooking the sediment pond. The information addressed the requirements of the R645 Coal Rules. Carbon County Road Department installed a small vertical signs on a small post showing road construction throughout the canyon. It is located next to the parking lot guardrail in the permit area but outside the disturb area. Since, this is a non-related to coal mine. There is no problem with this action.

3. Topsoil

The topsoil piles are located below the mine. There were no signs of wind or water erosion.
