Ms. Jean Semborski
Andalex Resources Inc.
P. O. Box 902
Price, Utah 84501

MAR 21 1998

Dear Ms. Semborski:

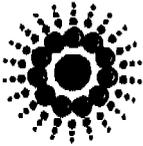

We received your letter regarding the post-mining land use for the for the public lands within the West Ridge project area. The post-mining land use for the subject lands would be wildlife habitat, grazing and incidental recreation.

If you have any additional questions, please feel free to contact Mark Mackiewicz of my staff at (435) 636-3600.

Sincerely,

Mark E. Baisy

Mr. Mark Mackiewicz, Realty Specialist
Bureau of Land Management
125 South 600 West
Price, Utah 84501

Dear Mark:

As you are aware, Andalex Resources, Inc. is proposing to construct and operate a coal mining facility in C Canyon, approximately 6 miles north of East Carbon City, Utah. Andalex has filed a Permit Application Package with the Division of Oil, Gas and Mining which discusses, in detail, the plans to construct, operate and reclaim this 29 acre mine site. Reclamation of the minesite involves removing all facilities from the site and regrading the area to the approximate, pre-existing configuration. Andalex, through the reclamation of the minesite, would be restoring the pre-existing landuses in that area, which are grazing, wildlife habitat and limited recreational use. Although a primitive road now exists into the site, post-mining plans call for retaining the upgraded Carbon County road to the perimeter of the site and terminating it in a turn-around loop. This would allow public access for hiking, hunting or land management purposes. Therefore, the proposed post-mining land use of this site will essentially be the same as that which exists today prior to any construction.

The Utah Coal Mining Rules (specifically R645-301-412.200) require Andalex to seek comment from the land management agency which would approve or authorize the proposed post-mining land use. Therefore, Andalex would like to request that the Bureau of Land Management respond to the proposed post-mining land use with comments in letter form. I am including a copy of the regulations and also the page from the West Ridge Mine Permit Application Package which specifies the proposed post-mining land use for the mine site area. Should you have any questions regarding this request, please contact me.

Sincerely,

Jean Semborski
Project Engineer
