**Re: Experimental Practice Test Plot, West Ridge Mine, C/007/0041**

Dear Sirs,

WEST RIDGE Resources, Inc. has reviewed the requirements of the permit (Appendix 2-6) for the experimental practice test plot study area. The test plot study area requires that the plot remain intact for 5 years and then reclamation to be performed. If the test plot was finalized in the Year 2000, then in the Year 2005 West Ridge will perform the reclamation of the test plot. The plan calls for the test plot to be accessed via the soil stockpile during late summer or early fall. We will inform you of the date that equipment will cross the soil stockpile and initiate the reclamation.

Call me at 435-888-4015 if you have any questions.

Sincerely

Gary E. Gray  
Agent/Engineer
