

Note: Mine projections are subject to change depending on conditions encountered in the underground mine workings.
 Note: Actual mine works shown in blue are existing as of November 1, 2002.
 Note: Mine projections depicted in the fringe areas beyond the existing permit area are speculative and based on future reserve acquisitions.
 No mining will be conducted in these areas unless those reserves are acquired in the future and permitted according to federal, state, and local permitting requirements.
 West Ridge Resources acknowledges that permission to mine within the permit boundary does not imply permission to mine beyond the permit boundary.
