1. Permits, Change, Transfer, Renewal, Sale

Pending Division Order: Division Order DO00A-7, Extension granted until May 2004. The Division received a response to Division Order DO-00A-7 on June 3, 2004. The Division Order was sent back to the permittee with deficiencies.

2. Signs and Markers

The mine ID signs are located at the pump house and the entrance to the mine site from the county road. The signs contain the permit number, address, and phone number of the operator. Other signs and markers observed during the inspection meet the coal rules.

4.a Hydrologic Balance: Diversions

The diversion adjacent to the oil storage area has had sediment removed from the silt traps. The entire area is snow covered and there are areas where snow has entered the diversion. The amount of snow in the diversions is not enough to effect the performance of the diversions.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The water level in cell A of the sediment pond has reached the level where it needs to be pumped into cell B to provide enough storage capacity for a storm event.
