Subject: Re: Arc survey Andalex resources

Joe,

Good thing you caught me, I was about to be out for the rest of the week. As we discussed, my general turnaround time is 30 days or less, and while I never promise less than 30 days, if I can accommodate an urgent request, I will do my best to do so. Today, you happened to catch me at a particularly good time.

I've reviewed your email and the report submitted. I concur with your determination that the project will not affect cultural resources.

Utah Code 9-8-404(1)(a) denotes that your agency is responsible for all final decisions regarding cultural resources for this undertaking. Our comments here are provided as specified in U.C.A. 9-8-404(1)(b). If you have questions, please contact me at (801) 533-3555 or mseddon@utah.gov.

Sincerely,

Matthew T. Seddon, Ph.D., RPA

Hi Matt,

Andalex resources has submitted to our agency an application to drill gob vent hole #10. Included as part of the application is an archaeological survey prepared by Sagebrush Consultants, L. L. C.. Our analysis and findings indicate that no cultural resource sites or isolated finds were identified during the inventory. Based on the information provided we seek your concurrence with our findings in recommending approval for this drilling project. A copy of the survey is included with this correspondence.

As indicated in our previous conversation the folks at Andalex would like to take advantage of the drill rig that is will be at the location of the #10 gob vent hole within the next few days pending our approval. With that in mind your prompt response is appreciated. Thanks again, Joe 801 538-5290
