Pam,

Again, we thank the Division for making our emergency Gob Ventilation Drilling application the number one priority for our companies.

As a follow-up to Dave's meeting yesterday, let me assure you that ANDALEX and UtahAmerican Energy have no higher priority at this time than the approval of these drill holes. Until such time as this ammendment is approved, we appreciate the Division focusing only on the "GVH" ammendment to the exclusion, for the moment, of actions pending at Centennial, Wildcat, West Ridge, Genwal and/or Lila Canyon.

Thank you Pam; as always, please call me if you have questions.

regards,
Mike Glasson
