East Carbon, UT 84520-0910

Subject: Final Approval with Stipulations of Installation of a GVH Facility, Task ID #3077, West Ridge Mine, C/007/0041

Dear Mr. Shaver:

The above-referenced amendment is approved effective November 12, 2008. The requirements of the following stipulations must be met within 90 days. If these stipulations have not been satisfied within this time, the Division may take enforcement action.

Within 90 days of this approval, West Ridge Resources, Inc. must provide documentation that the access road to the Gob Vent Hole is a public road under county jurisdiction, or provide the necessary information to have the right fork of the road permitted as a mine road. (See R645-301-521.170 and R645-301-527)

Within 90 days of this approval, West Ridge Resources, Inc. must provide laboratory analysis of the three soil pedons found at the GVH site for incorporation into the MRP. (R645-301-223)

Within 90 days of this approval, West Ridge Resources, Inc. must update the reclamation agreement by submitting a revised Exhibit A (legal description of the disturbed area) accompanied by an Exhibit D (revision to the reclamation agreement). As a result of the proposed project, the revised exhibits must reflect the correct acreage in the permit and disturbed area as identified in Chapter 1, page 1-13 and Appendix 5-14. (R645-301-820.110)

You are hereby authorized to commence construction of the gob gas vent hole (GVH). Enclosed is a stamped incorporated copy for insertion into your copy of the Mining and Reclamation Plan.

Thank you for completing this permitting action. If you have any questions, please feel free to call me at (801) 538-5262.

Sincerely,

A handwritten signature in black ink, appearing to read "J. D. Smith". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

James D. Smith  
Permit Supervisor
