R

Thanks for attaching the lab report Priscilla.

I will incorporate specific parameter results from Gary's samples in my new report. I will also address the canyon sweetvetch issue in the vegetation test plot report.

Patrick

Patrick/Dave,

The Division requires final versions of both soils and vegetation reports ASAP, so that the Permittee is in compliance with R645-301-21

The test plot monitoring vegetation monitoring schedule is outlined in App. 2-6, Table 3-4. One question that should be answered with

The soil sampling at T1, T2, and T3 is described in the 2000 Addendum to App. 2-6.

FYI, Gary Gray sampled the test plot surface soils after they were reclaimed (unearthed or replaced) in fall 2006. I have attached the

Dave & Priscilla:

The draft report is basically complete. I'll wait for the mail to come Monday to see if the final lab report is there. If it is not, I will just copy the faxed report I received and finalize my report at that time.

Call if you have questions

Thanks,  
Patrick
