Q

Hello Dave,

I have attached inspection report #1849 for the site visit to the experimental practice and Bear Canyon GVH in November 2008. This report indicates that you have been reminded several times over the past year that the vegetation analysis for the experimental practice and soil sampling at T1, T2, and T3 is long overdue. As we just discussed by phone, this report is required for me to fulfill the evaluation requirements of R645-302-217 and must be provided ASAP.

Priscilla
