OGMCOAL - NOV #10063

From: "Shaver, Dave" <dshaver@coalsource.com>
To: "Daron Haddock" <daronhaddock@utah.gov>
Date: 9/14/2010 9:00 AM
Subject: NOV #10063
CC: "Priscilla Burton" <priscillaburton@utah.gov>, "Ingrid Wieser" <ingridwi...>

Daron...Priscilla and I met at the West Ridge catchments yesterday to discuss the soils monitoring requirements for permitting the catchments. She outlined a sampling plan which I will start collecting tomorrow when I can get some laborers to dig the sample pits. Priscilla said it would take about 2-3 weeks to get the analysis back from the lab. Since I need this information as part of the MRP amendment to abate the violation 10063, I would like to request a one month extension on getting the amendment submitted. In the meantime, we have assembled the chemical system, constructed both catchments C and E, and have begun broom cleaning of the channel as of today. We expect the cleaning to take about one month to complete, since we are cleaning seven miles of channel as opposed to less than one mile last year. Thanks

Dave
